

THE BASICS

HOW TO USE CONDITIONER & CONDITIONING TREATMENTS CORRECTLY

Naturalmente conditioners will not weigh your hair down, but will hydrate, re-structure and seal your hair.

Tips

Everyday conditioning

- After rinsing shampoo, keep all the water in the hair and work a small amount of conditioner through, combing through afterwards
- Leave for as long as you can, then rinse

Treatment days

- Squeeze excess water out of hair after shampoo
- Work product through the hair, then comb through
- Scrunch out excess water with a towel
- Apply an additional amount of the conditioner, and leave in for as long as you can
